

KENTWOOD™ Product Profile

KENTWOOD™ PRO ELASTOMERIC FLOORING ADHESIVE

KENTWOOD PRO Elastomeric Flooring Adhesive is a one-part, trowel-applied moisture-cure urethane adhesive specially formulated for all glue-down installations of Kentwood hardwood flooring. Once cured, KENTWOOD PRO is not adversely affected by exposure to moisture or water; its superior properties provide a tough, flexible, tenacious bond to a variety of surfaces. KENTWOOD PRO's elastomeric characteristics allow the adhesive to move with the wood as it expands and contracts over the life of the floor.

Features:

- contains NO WATER
- recommended for all glue down applications of Kentwood floors
- can be used over all suitably prepared substrates
- suitable for 'double stick' application (hardwood over acoustic underlay)
- can also be used to install ceramic tile, marble and stone inlays (residential and light commercial applications)
- economical 4 gallonUS (15.14 liter) pail
- low VOC, LEED compliant

For complete product information sheet please visit kentwoodfloors.com/literature.
