ELEMENTS™
BY KENTWOOD

Introducing Elements by Kentwood, an exclusive collection of genuine hardwood floors that deliver great performance and great value. With a variety of popular species, styles and colors to choose from, Elements by Kentwood puts real hardwood within everyone's reach.

SOLID HARDWOODS

Solid and substantial yet warm and inviting, nothing says "home" like a solid wood floor.

ENGINEERED

Elegant wide planks, satin finish and classic species and color combinations offer a sophisticated look for any interior.

ANTIQUED

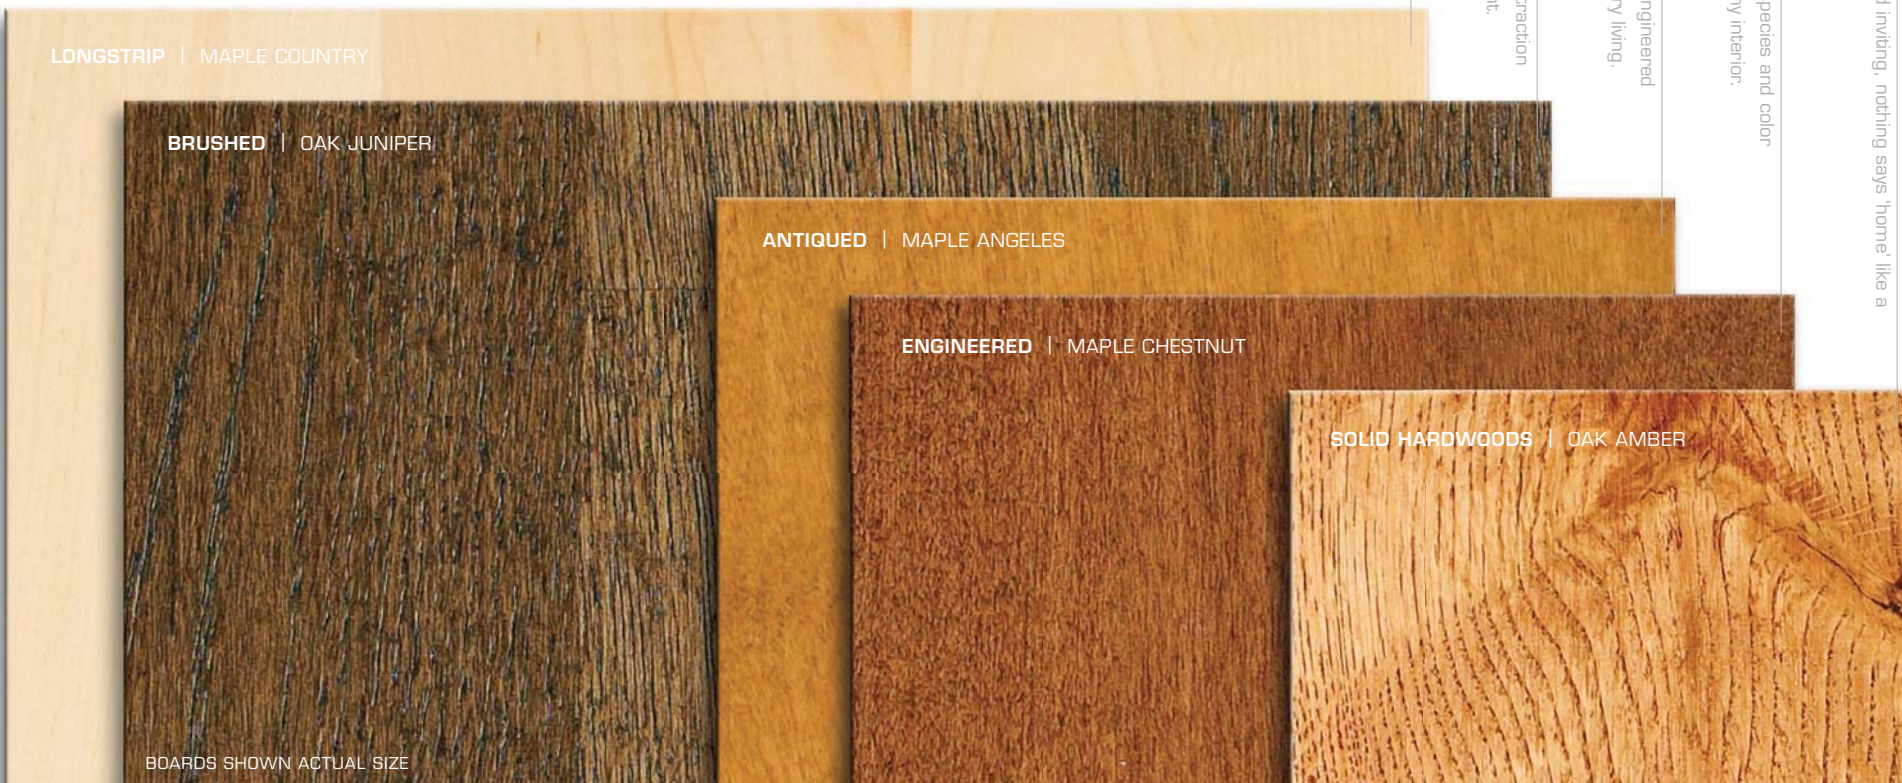

The rustic character of antiqued surface and versatile engineered construction make a great combination for contemporary living.

BRUSHED

A stylish new spin on the popular longstrip style, with the added attraction of a lightly brushed surface and low lustrre finish. Effortlessly elegant.

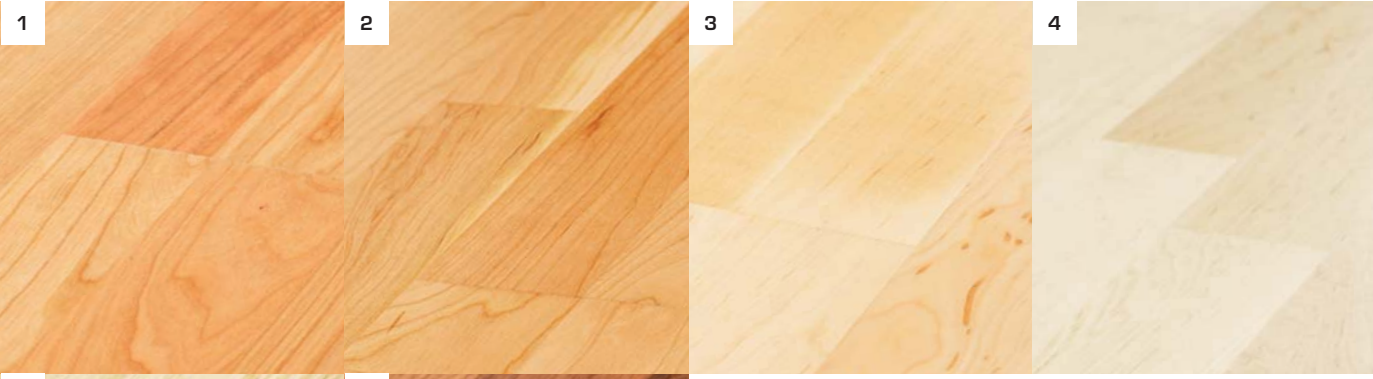

LONGSTRIP

Classic European-style wide plank floating floors with 'three strip' surface layer of real hardwood. A Kentwood best-seller.

ELEMENTS™
BY KENTWOOD

real within reach

KENTWOOD floors are made from real wood, not a manufactured imitation. Because wood is a natural material, every piece of KENTWOOD flooring will have a unique appearance, often with naturally-occurring variations in color, texture and grain pattern. Showroom samples and photographic reproductions can give an example of the product's appearance but they may not be representative of the full range of color, texture and grain variations which can occur in the product itself. The product images on this chart are intended for reference only and should not be considered as representative of the product's actual appearance. Note: Product selection may vary by area. Product selection and specifications are subject to change without notice. The trade-marks ELEMENTS BY KENTWOOD and KENTWOOD are owned by Kentwood Floors Inc. and are used under license.
