KENTWOOD floors are made from real wood, not a manufactured imitation. Because wood is a natural material, every piece of KENTWOOD flooring will have a unique appearance, often with naturally-occurring variations in colour, texture and grain pattern. Showroom samples and photographic reproductions can give an example of the product's appearance but they may not be representative of the full range of colour, texture and grain variations which can occur in the product itself. The product images on this chart are intended for reference only and should not be considered as representative of the product's actual appearance. Note: Product selection may vary by area. Product selection and specifications are subject to change without notice. The trade-marks KENTWOOD and COUTURE COLLECTION BY KENTWOOD are owned by Kentwood Floors Inc. and are used under license.
