

# KENTWOOD™ MATERIAL SAFETY DATA SHEET

## SECTION 5 – REACTIVITY DATA

STABILITY:	The product is stable under normal conditions.
INCOMPATIBILITY:	This product may react with strong oxidizing agents, strong acids and alkalis.
HAZARDOUS DEGRADATION PRODUCTS:	Upon decomposition, this product may yield oxides of nitrogen, sulphur, hydrogen sulphur, carbon dioxide, carbon monoxide and other low molecular weight hydrocarbons, acroleine.
HAZARDOUS POLYMERIZATION:	Will not occur.
REACTIVITY CONDITIONS:	Avoid excessive heat.

## SECTION 6 – TOXICOLOGICAL PROPERTIES

ROUTES OF ENTRY:	Eyes, skin, ingestion, inhalation
EXPOSURE LIMITS:	Not available. Consult local authorities for acceptable limits.
TOXICITY FOR ANIMALS:	Not available
ACUTE EFFECTS:	Skin: Prolonged and/or repeated skin contact may result in slight irritation and dehydration. Eyes: Causes slight eye irritation. Inhalation: No significant effects expected from a single short-term exposure. Ingestion: Diarrhoea, nausea, vomiting.
CHRONIC EFFECTS:	<b>Carcinogenicity:</b> Not listed as carcinogenic. Teratogenicity, mutagenicity: not available.

## SECTION 7 – PREVENTIVE MEASURES

PROTECTIVE EQUIPMENT:	Use with adequate ventilation. Wear safety glasses. Wear suitable protective clothing. Wear impervious gloves for prolonged contact. Under normal conditions, respirator is not normally required. Eye wash fountain and emergency showers are recommended.
LEAK AND SPILL PROCEDURES:	Isolate spill or leak area immediately. Absorb with an inert dry material and place in an appropriate disposal container. Wear appropriate personal protective equipment during cleanup. Prevent entry into waterways, sewers, basement
WASTE DISPOSAL:	Recycle is possible. Consult your local or regional authorities.
HANDLING PROCEDURES AND EQUIPMENT:	Do not ingest. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid prolonged or repeated contact with skin and eyes. Keep away from incompatibles. Wash thoroughly after handling.
STORAGE REQUIREMENTS:	Keep container tightly closed. Keep in a cool, dry, well-ventilated place. Avoid freezing or excessive heat. Do not contaminate with water, food or feed by storage or disposal.

## SECTION 8 – FIRST AID MEASURES

INHALATION:	<b>Slight inhalation:</b> Allow the victim to rest in a well ventilated area. Seek immediate medical attention. <b>Hazardous inhalation:</b> Evacuate the victim to a safe area as soon as possible. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, administer oxygen. If the victim is not breathing, perform mouth-to-mouth resuscitation. <b>WARNING:</b> It may be dangerous for the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek immediate medical attention.
SKIN CONTACT:	If the chemical got onto the clothed portion of the body, remove the contaminated clothes as quickly as possible, protecting your own hand and body. Place the victim under a deluge shower. If the chemical touches the victim's exposed skin, such as the hands: gently and thoroughly wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. Cover the irritated skin with an emollient. If irritation persists, seek medical attention. Wash contaminated clothing before reusing. <b>Hazardous skin contact:</b> Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream.
EYE CONTACT:	
INGESTION:	Check for and remove any contact lenses. Rinse well with water during 20 minutes by keeping the eyelids opened. Seek medical attention. <b>Slight ingestion:</b> Do not induce vomiting. Have conscious person drink several glasses of water or milk. Seek immediate medical attention. <b>Hazardous ingestion:</b> Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. <b>WARNING:</b> It may be dangerous for the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek immediate medical attention.
