

## Kentwood Collection: Avenue Collection

Understated elegance informs these classically beautiful floors, designed to harmonize with their surroundings while celebrating the ingrained character of the hardwood.

Medium width board in assorted lengths and species, brushed surface treatments.

**\*\*While maintaining recommended levels of heat and humidity is important for all hardwood floors, it is imperative for species like hickory and acacia, which react more severely to environmental changes. For hickory and acacia flooring, relative humidity must be maintained at 30-50% at all times, as specified by the NWFA. If these conditions cannot be met and maintained, alternate flooring options should be considered.\*\***
