

## PRODUCT PROFILE

# KORK

## Natural Cork Underlay for Hardwood Flooring

The bark of the cork tree makes an excellent natural acoustic underlay, with many physical properties that are desirable in a hardwood underlay including sound absorption, insulation, and impact resistance. It is also rot and mold resistant and is a naturally renewable resource as well.

Kentwood Kork is manufactured in easy to handle 2' x 3' (610mm x 915mm) sheets. It is made from authentic natural cork with a polyurethane binder, and comes in two thickness options. It can be used in glue down and floating installations. It may also be used in nail down installations but the use of mechanical fasteners will diminish the acoustic performance of the underlay.

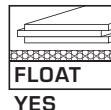

## Product Features

- Superior soundproofing performance (FIIC 58, ASTC 56)\*
- Natural insulation & impact resistance
- Precision made 2' x 3' sheets, easy to install
- Mold and mildew resistant
- Available in 4mm or 6mm thickness

## Installation Options

Above grade: **OK**  
On grade: **OK**  
Below grade: **OK**

## Product Specifications

FIIC Rating: **FIIC Rating: 58**

ASTC Rating: **ASTC Rating: 56**

Sheet Size: **Sheet Size: 24" x 36" (610mm x 915mm)**

### KORK 4 MM

Box contents: **38 pcs**

Coverage (per box): **228 sq/ft (21.20 sq/m)**

SKU #: **19146**

### KORK 6 MM

Box contents: **25 pcs**

Coverage (per box): **150 sq/ft (13.95 sq/m)**

SKU #: **SKU #: 19148**

\*Product tested in combination with 7½" (190mm) concrete slab. For more information on FIIC & ASTC Ratings for this product, please contact your KENTWOOD representative.

\*\*Use of fasteners will diminish the acoustic performance of Kentwood Kork
